AutoQuotes ERP Integration for Sage

AutoQuotes (formerly Caterquotes) is the number one quotation system in the Catering Equipment Industry. Autoquotes Integration allows sales quotes and purchase orders to be imported to various accounting systems, eliminating the need for manual entry and reducing the risk of error during the transfer process.

Caterquotes Integration for Sage allows the user to have the ability to link orders to projects, automatically create purchase orders and transfer your buy and sell prices to your accounts package.

key benefits

Integration

Link orders to projects, automatically create purchase orders and transfer buy and sell prices to your ERP package.

Save Time

Save time by eliminating manual entry into the ERP system.

Reduce Errors

Reduce the risk of errors when entering Sales Quotes and Purchase Orders.
